PROJECT SNAPSHOT

50K+	36	4	35+
Lines of Code (ERP)	REST API Controllers	Apps Shipped (Web-Angular-Android-Flutter)	Automated Tests

PROFILE

Full-Stack Developer with hands-on experience architecting a production-scale ERP system — Accounting & Finance module complete (~50K LOC across a Spring Boot backend, Angular frontend, and Android/Flutter clients), with Inventory, Sales, and HRM modules planned next. Strong analytical foundation in Statistics (M.Sc. & B.Sc.); focused on clean, feature-based architecture, automation (schedulers, notifications), and end-to-end ownership from database design to mobile client.

PROJECTS

NexaERP — Accounting & Finance Management System

Complete | Inventory, Sales & HRM Planned

Spring Boot · Angular · MySQL · JWT · Apache POI (Excell Import/Export)

- ▶ Delivered a complete double-entry Accounting & Finance module (~50,000 LOC, 36 REST controllers, 27 Angular feature modules) as Phase 1 of a multi-module ERP.
- ▶ Designed a generic, polymorphic approval workflow engine (Adapter pattern) driving multi-step approvals across Invoice, Vendor Bill, Payment, and Manual Journal.
- ▶ Automated recurring journal entries via a scheduled job at configurable intervals; built Budget tracking, Expense management, and overdue-payment detection with in-app + email notifications.
- ▶ Built bank reconciliation supporting both manual matching and CSV bank-statement upload.
- ▶ Implemented DB-driven RBAC (@PreAuthorize), JWT auth with refresh-token rotation, and audit logging that records field-level changes and originating IP address.
- ▶ Produced 6 financial reports (Trial Balance, P&L, Balance Sheet, Aging Report, etc.) with Excel export; covered critical workflows with 35+ automated tests.

TRAINING

Web & Mobile App Development

using Spring Boot, Android & Flutter
IsDB-BISEW IT Scholarship — 788 Hours

EDUCATION

M.Sc. in Statistics

Dhaka College (Univ. of Dhaka)
2024

B.Sc. in Statistics

Dhaka College (Univ. of Dhaka)
2023

HSC — Science

Dinajpur Adarsha College
2019

SSC — Science

Lahiri Multi-Lateral High School
2016

CERTIFICATIONS

IELTS Preparation Course

Mentors — Aug–Nov 2025

Grammar & Writing

Mentors — May–Jul 2025

Spoken English & Phonetics

Mentors — May–Jul 2025

Basics of Data Science

UniAthena (Cambridge) — Jul 2024

Basics of Python, Machine Learning

UniAthena (Cambridge)

NexaERP Mobile — Android Companion App

Java · MVVM · Retrofit · Android Studio

- ▶ Built a companion Android app consuming NexaERP's backend APIs: Authentication, Dashboard, Notifications, and full CRUD for User & Role management.
- ▶ Followed MVVM with a Repository layer, Retrofit + OkHttp + Gson networking, LiveData/ViewModel state, RecyclerView-based lists, and unit tests for ViewModels/repositories.

GitHub: github.com/md-sabbir-hasan/NexaERP-Mobile

NexaERP Flutter App — Cross-Platform Client

Flutter · Dart · REST · Android Studio

- ▶ Built a cross-platform Flutter client covering most of the NexaERP backend API surface, extending the ERP to Android/iOS from a single codebase.

GitHub: github.com/md-sabbir-hasan/NexaERP-Flutter

Social Media & Mental Health — Research Study

IBM SPSS · R · RStudio · Cross-Sectional Study

- ▶ Designed a questionnaire, collected cross-sectional data, and statistically analyzed it in SPSS/R, presenting findings at Dhaka College.

Weather Task CLI — Python Command-Line Weather Application

GitHub: github.com/md-sabbir-hasan/Weather_Task_Project_CLI

GitHub: github.com/md-sabbir-hasan/Task_Management_SaaS

TECHNICAL SKILLS

Backend: Java (Core & Advanced), Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, Servlet/JSP, RESTful API Design, Python, Node.js, Express.js, React (Practicing)

Frontend: Angular (SPA), TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap 5

Mobile: Android (Java, MVVM, Retrofit, Android Studio), Flutter (Dart, cross-platform)

Database: MySQL (Schema Design, Joins, Indexing), Oracle 19c (SQL & PL/SQL), Firebase

Data & Statistical Tools: IBM SPSS, R, RStudio, Google Sheets

Architecture & Patterns: Adapter Pattern, Service/ServiceImpl Layering, MVVM, Repository Pattern, RBAC Design, Scheduler-based Automation

Tools: Git & GitHub, IntelliJ IDEA, Android Studio, Postman, VS Code, Apache POI, iText7, JUnit

SOFT SKILLS

- ▶ Communication & Team Collaboration
- ▶ Problem-Solving & Analytical Thinking
- ▶ Time Management & Adaptability
- ▶ Report Writing & Presentation

KEY ACHIEVEMENTS

- ▶ Architected a 50K+ LOC ERP spanning Spring Boot, Angular, and Android/Flutter clients
- ▶ Built a reusable, Adapter-pattern approval engine across 4 document types
- ▶ Automated recurring journals, budgets, and overdue alerts via schedulers
- ▶ Shipped a companion Android app end-to-end on the same API surface
- ▶ Backed critical workflows with 35+ automated tests

PERSONAL INFO

Date of Birth: 27 April 1999

Father: MD Saiful Alam

Nationality: Bangladeshi

Religion: Islam

Permanent: Lahiri, Baliadangi, Thakurgaon
